

# Brown University Chemistry Department

Congratulations on your admission to Brown University!

## Announcing... Chem. 100 -web Summer 2009 Brown University

- Practice for the fall Chem 330 placement exam online.
- Refresh or expand your introductory chemistry knowledge.
- Get feedback about your level of preparation.
- Get a head start for the fall.
- Do it all online and at your own pace.

Chem.100-web is a free online course that helps incoming first-year students review general chemistry. It includes a diagnostic exam and covers stoichiometry, atomic and molecular structure, chemical bonding, solutions, chemical reactions, and thermochemistry.

Chem.100-web is a voluntary non-credit course that is offered only during the summer. The alternative is to take Chem 0100, a semester-long class offered during the fall semester, then take Chem 0330 in the spring semester.

This program is cost-free and is appropriate for students of all backgrounds.

**Registration for Chem.100-web 2009 opens June 15 and closes August 14.**

Students with Brown usernames and passwords can register for Chem.100-web at <http://www.brown.edu/cis/services/academic/itg/classReg/student.php>. Select Chem.100-web 2009. After a few days, you will be able to access the course in mycourses.brown.edu.

To learn more about Chem.100-web, please contact [Sandra\\_Russo-Rodriguez@brown.edu](mailto:Sandra_Russo-Rodriguez@brown.edu).
